7.	Abishek Mohan Kumar	Injuries of lower limb muscles.
8.	Vetrichezhian Nedunchezhian	Posture and gait.

Consultations via email: [igor.sladojevic@med.unibl.org](mailto:igor.sladojevic@med.unibl.org)

### INSTRUCTIONS FOR SEMINARS

Each student will be assigned an anatomical topic to present orally. The presentation must be created using Microsoft PowerPoint software and should include a minimum of 12 slides.

Use easy-to-read fonts, such as Times New Roman or Arial. Limit the text on each slide to 6-8 lines, and explain images or diagrams orally. Use **high-resolution images** sourced from books or reliable online platforms.

For better visualization during projection, ensure the font size is **22 or larger**. Avoid using sound effects or background music. Finally, make sure to proofread your presentation carefully before submission.
