INSTRUCTIONS FOR SEMINARS

Each student will be assigned an anatomical topic that the student will present orally. The presentation should be made by Microsoft PowerPoint software. Presentations should be minimum of 10 slides long. Use easy-to-read fonts such as Times New Roman or Arial. **Keep text to a minimum 6-8 lines per slide** or explain the presented picture orally. Use images from books or images found online, but only if the image resolution is high ! For better projection visualization keep font size 22 or bigger. Leave out the sound effects and background music. Proofread it.
